

PENGSEN ZHAO

DATE OF BIRTH:

17.08.2003

PERSONAL PROFILE:

I am a recent graduate from Kingston University with a BA (Hons) in Interior Design. My design interests focus on social sustainability and adaptive reuse, exploring how existing buildings can be reactivated to respond to social and environmental challenges. Building on my interior design background, I am extending my work to the architectural scale, using spatial and architectural strategies to address problems through the building itself.
